Definitely a chaotic song

What do you think of this? Not my favorite GT song, but there are some iconic samples in it for sure

haha, yeah, this is by FAR not his best song. I actually shared it because I do love Girl Talk's randomness, but this is a prime example of taking it too far.

Not surprised at your response :)

I had no clue who the artist was before, and yet they have good music, but then have a lot of this kind of songs that are overtop remixes.

Do you have a favorite song?
