What's the revenue share?

What we bring:

- Proven adult ad stack and routing system
- Optimization that raises RPMs
- Direct demand and stable fill
- Clean setup and transparent stats
- Long-term partnership approach

Who this is for:

- Adult site owners with steady or growing traffic
- Reddit and Telegram traffic owners who have not monetized yet
- Anyone unhappy with weak rates or inconsistent payouts
- Those who want an actual partner instead of a generic ad network

How the JV works:

- You add our monetization setup
- We tune it, split-test, and optimize
- Revenue is shared based on performance
- No upfront costs and no commitments beyond the JV itself

If you want to turn traffic into consistent revenue with a partner who handles the monetization side, send us a PM with your traffic source.

Let's see if we're a fit.

I have adult traffic that converts seemingly well, but I would like to know a little more on what it is you're offering to determine if it will convert better than what I'm already using the traffic for. Are you basically just connecting us with the AD Network that's located in your signature and performing all the split testing yourself? Or are you offering something more indepth? What is the cost of the item/subscription that we're promoting? The more details you can share about what you're offering, the better.
