Thread: [Lesbian foster parents torture children and kill nine year old.](#)

Not mentioning their sexuality to be homophobic but it is an interesting feature. I think there are many lesbian couples that are loving with children out there? But anyway the only photo of this nine year old girl she has her hair shaved off I bet she didn't want that either. What is with these two scumbags?

CBS News reported that state troopers grew suspicious of her foster parents after another foster child in the women's care allegedly told investigators they saw Eutsey and Shipley beat Renesmay, put her body in a tote bag and then place that bag inside a larger garbage bag.

The bio mom gave her children to her cousin while she was trying to get off drugs. Another foster child who allegedly told police they saw Eutsey and Shipley harm Renesmay claimed they witnessed the foster parents "[kick] her in the stomach" after hearing a commotion outside their bedroom. Hmm I was punched in the stomach a lot as a child. Not sure what age that started. I was also given the coolest toys and trips to amusement parks to apologise for the sometime abuse so it wasn't all bad.
