Thread: [\[WTB\] ProtonMail/VPN Upgrade / Xbox Game Pass Ultimate / Google/G-One / iCloud+](#)

TEKNIX187 - November 27, 2025, 11:48 am

Hello everyone. Happy Thanksgiving!

So I've been looking for my best option for a Gmail alternative and stop using Gmail eventually altogether. Haven't done much research or anything so at the moment I've been using Proton, specifically their free mail service. I would really like having Proton Premium which gives me a ton of more stuff with it, including their VPN.

I'm getting ads for a promo for \$1/m plus membership but I feel I really need the premium. However plus would be smartest for me as I don't have too much money and have been struggling irl.

I'm not looking for someone to sell me this with their account. I would like to upgrade the current one I made and will start using when it's upgraded.

I also just got my Xbox Series S I had not had for almost a year as someone broke in and stole it at a halfway I was at. The case with that guy is over and he's sentenced. I ended up getting my Xbox back from evidence yesterday! (?)

I need to get back into gaming as I have no hobbies or fun at all ever, only stress and problems more and more.. my girls mom just had a stroke and is in bad shape and my mom is in assisted living 3 hrs away and doesn't remember my face or voice anymore (dementia) or can walk. (Ataxia, neuropathy in feet, etc)

That last part I just posted here is irrelevant, I apologize. I guess it kinda helped voicing it right now.

So back to it: if you can upgrade proton, hit me up with my options:
(such as "3 months - \$xx, 6 months— \$xx, or 12 months — \$xx)

I'd also like to get the best available Xbox Game Pass Ultimate. I had people that would have them a lot. And I have a few shops and vendors that have them sort of but it's usually they can't upgrade mine and I'd have to use there's. I PREFER* that isn't how we can do this.

Please post, and message me with what you can do, and my available price options for however many months.

Also! I would like some quotes for prices on multiple user, family(?) Google One upgrade. I have been forced to just pay 1.99 a month for like 100-200gb for a single account. I don't use Gmail much but I still need them and don't want to have no space in them and have em sit. I'd like a cheap option (not much space is needed, terabytes for example I would never get close to using lol .. but shoot me some options for google one upgrades too, that I can add at least 2-3 other Gmail accounts on the plan too.

Also I need to upgrade to better iCloud+. With the one I pay, I'm about to be out of the 50gb they give me.

Also, unless you have great prices I probably won't be getting 12 months+ for everything, or some. Or maybe I will, I don't know until you let me know your prices for however many months. Also let me know about the proton too. I've never had premium or plus for them so I don't know how much yet I would use all the features but so far I still feel I'd like to get it and try it out and see where it goes from there.

Thanks in advance everyone!
