Today is Black Friday.. has anyone taken advantage of any special deals?

GrayBytes - November 28, 2025, 1:55 pm

Black Friday is just another excuse to get people to buy more stuff on "discount"

Black Friday is present-buying time before Christmas and Santa is a lie, so that means Black Friday is a lie too.

I already did my shopping. So I'm good.

Yea I just ordered new ASUS PRIME LC 240 AIO for 50€.

I figured I needed a new CPU cooler and I have never had an AIO.

Gotta give one a test, if that doesn't work ill buy the Noctua NH-D15 CPU cooler.
