Thread: [black Friday sales and cyber monday](#)

Anyone buying anything during black Friday and cyber Monday for sales?

For me I am not buying anything but will buy classes online or Udemy (warez disallowed) in December when they have sales.

That's pretty cool.

The numbers are in the U.S.A there were more sales this year compared to last year.

However 60% of people are financing their purchases.

It's a sad reality. Layaway has always been a big thing as well.
