Thread: [Cloudflare & WAF Bypass | Custom Scrapers | Bots & Checkers Custom Coding](#)

whoispatch - December 2, 2025, 10:56 am

? Cloudflare & WAF Bypass | Custom Scrapers | Bots & Checkers ?

been doing this shit for years, if you need something bypassed or scraped hmu

? WAF & Protection Bypass

i bypass literally anything you throw at me:

Layer7 Scripts, etc. For scraping....

- Cloudflare (turnstile, js challenges, all that shit)
- DDoS-Guard
- Akamai Bot Manager
- Imperva/Incapsula
- Sucuri
- any other custom WAF setup you got

if it's blocking you, i'll get through it. simple as that.

Aaaand Custom Scrapers & Data Extraction

any site, any protection, guaranteed.

platforms i work with:

- Social Media: Instagram, TikTok, Twitter/X, Facebook, OnlyFans
- E-commerce: Shopify, Amazon, eBay, Temu, AliExpress, Walmart
- Crypto/NFT sites: OpenSea, exchanges, whatever
- literally any other site you need scraped

what i can scrape:

- price monitoring & tracking
- inventory/stock monitoring
- product drops & restocks
- user data (followers, posts, engagement)
- images, videos, metadata extraction
- reviews, ratings, descriptions

output formats:

- JSON / CSV
- real-time API endpoints
- direct database push (MySQL, MongoDB, etc)
- webhook notifications
- discord/telegram alerts

Bots & Automation

full automation for whatever you need:

- account generators - TikTok, IG, Discord, Twitter, Spotify, Netflix, whatever
- Discord bots - scraping, mass dm, moderation, token checkers
- WhatsApp automation - mass messaging, group scrapers
- Telegram bots - custom commands, scraping, automation
- engagement bots - auto likes, follows, comments, views
- auto-claimers - airdrops, rewards, giveaways
- game bots - if it's repetitive, i can automate it

All bots come with proxy support, captcha solving, anti-detection, the works.

? Private Checkers

need a custom checker for a specific site? i got you.

i'll build you a checker that captures whatever data you need:

- account validity
- balance/credits
- subscription plan & tier
- expiry dates
- country/region
- literally any custom data field

features:

- multi-threaded (fast as fuck)
- proxy support & rotation
- captcha solving integration
- custom output format
- combo list support
- real-time results

? Pricing

prices vary based on complexity and what you need

simple scrapers/checkers: \$50-150

medium complexity: \$150-400

advanced bots/automation: \$400+

bypass solutions: depends on the target

dm me with your requirements and i'll give you an exact quote

most projects done in 24-72 hours

updates & support included for 30 days

? Portfolio & Vouches

can show examples of past work (within reason, obviously), ex: MultiBypass, CDNByPass.

? How to Order

1. dm me here on HF, open a contract
2. tell me exactly what you need
3. i'll quote you a price & timeline
4. payment (crypto preferred)
5. i deliver the goods/scripts

? Notes

- serious inquiries only - don't waste my time with stupid questions
- no refunds after delivery (you'll see it works before paying full)
- payment: BTC, XMR, LTC, ETH, CRYPTOOOO plz.
- vouches/reviews appreciated after delivery

? Contact: DM me

? if it exists online, i can scrape it. if it's blocking you, i can bypass it. simple. ? [contract=tid]Start Contract[/contract]
