Thread: [Guys I had crypted exe file i want to send via gmail bypass all](#)

Dailulan12 - December 9, 2025, 12:38 pm

Guys I had crypted FUD exe file and i want to make it AUTO-EXE like, I want to send zip file my victim via gmail and when my victim download the zip file my virus exe will run auto , and other pdf file normal he will open normal

Stanley - December 9, 2025, 12:39 pm

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

As long as your file is fud, you can direct put your exe file into Google Drive the spread the link into the html letter using spoof smtp.

or upload your exe file on bulleproof website.

realhass - December 9, 2025, 6:54 pm

do you have telegram? i want to ask a few questions

If Gmail's scanners detect an exe file in a zip, that email will be blocked entirely. Getting Windows to automatically extract and execute an exe from a zip when downloaded is just, well...

Does it really work?

akusayan - January 3, 2026, 10:02 pm

There is no way you can directly send .exe
try .reg exploit or .xll Both bypass gmail .reg directly uploadable .xll u need to use Gdrive

How did you create the exe file? Could you explain a little bit? I'm looking for it too and I really need it.

Exe is usually created from your rat when you create payload. Then now you get it crypted to bypass av.
