Cyber has the best stealing methods on the market right now
GLWS !

Sticky Bot - December 11, 2025, 3:31 am

Hi, I'm Sticky Bot. The owner of this thread has purchased a Paid Sticky. Hack Forums does not get involved in deals or deal disputes. We do not vouch for the product or the service offered by members. Please note that all deals are at your own risk. The sticky will expire on Jan 1, 2026. If you or a loved one are interested in buying a sticky please visit this page: [Buy Sticky](#). For more information about Paid Stickies you can read our [Help Doc](#).

jmark7 - December 11, 2025, 4:42 am

the design is sick,
has all the features any stealer would need.

MeW11 - December 11, 2025, 7:28 am

this i may wana try

martigo333 - December 11, 2025, 8:26 am

Wow looks great, will come back later....

Transporter007 - December 11, 2025, 11:57 am

output is fud or needed the crypter ?

Cyber Products - December 11, 2025, 12:02 pm

(Dec 11, 2025 12:57 PM)Transporter007 Wrote: [\[CITE\]](#) output is fud or needed the crypter ?

You will get a free private crypt that bypasses everything on runtime and scantime on your purchase so you do not have to worry about getting a crypter.

InspectorGadget - December 11, 2025, 1:24 pm

(Dec 11, 2025 01:02 PM)Cyber Products Wrote: [\[CITE\]](#) You will get a free private crypt that bypasses everything on runtime and scantime on your purchase so you do not have to worry about getting a crypter.

What about when the crypt at purchase becomes detected over time? Are re-encrypts free for the duration of the package?

Cyber Products - December 11, 2025, 5:28 pm

(Dec 11, 2025 02:24 PM)InspectorGadget Wrote: [\[CITE\]](#) What about when the crypt at purchase becomes detected over time? Are re-encrypts free for the duration of the package?

exactly, r-encrypts are free of charge, as long as you have an active subscription with my product, i must take care of your encryption.

?Smurf - December 11, 2025, 10:50 pm

Is it possible to spoof the extension to a .pdf instead of .exe? If so, will it still remain FUD and bypass smartscreen?

Cyber Products - December 12, 2025, 5:12 am

(Dec 11, 2025 11:50 PM)?Smurf Wrote: [\[CITE\]](#) Is it possible to spoof the extension to a .pdf instead of .exe? If so, will it still remain FUD and bypass smartscreen?

I do not sell exploits, you will get an exe file from the builder.

So what does this tool help cybercriminals do and what's your Telegram? #SayNoToCybercrime #ActReportProtect

duarffodog - February 23, 2026, 10:55 pm

be weary of this guy, he might not flat out scam you but hes clearly either unable to handle the amount of clients and workload he has now or whatever the reason or excuse he has but regardless it is not ok. I have been waiting over a month now just to have a working version of the Stealer GUI and the RAT because i bundled them together well here i am a month down the road, and having more issues with his tech. Either the stub stops working on the RAT, or the payload from the Stealer is not FUD which are supposed to work and be guarantees, having a FUD payload. This combined with the other issues i have been having stemming from either needing a HWID reset, or having to wait 2-4 days for him to reply to my messages and then from there i am told it will be Nother day because hes going to sleep or whatever his excuse is for this next time i am just tired of it. At this point unless the seller provides me with the updated and fresh 1 month keys/updated applicatioons PLUS the crypter so then i do not have to be stuck waitinf for him when that version is no longer FUD because its ridiculous. had i known this was an issue, then the cost of the tech should be FAR LOWER so i can pay for an outside Krypter. At this point, i am pretty much tired of dealing with them and at the point where if this is not addressed in 24 hours i want a full refund.

be cautious dealing with them

Cyber Products - February 24, 2026, 10:39 pm

duarffodog - March 4, 2026, 11:46 am

Another update. STAY AWAY FROM THIS GUY, his tech is absolutely unpredictable, nothing fucking ever works correctly. His tools are literally just made to look fancy (someone else pointed out the same thing), i have requested multiple times for them to refund my funds I even suggested that they could refund me \$250 instead of the \$350 i paid. If their excuse is the keys were extended for me, or whatever, bullshit he can just VOID them I DONT CARE. I would much rather have \$250 to spend elsewhere, but they refuse to refund me any time i bring it up. They provided me a Crypter after bugging them because the payloads were not FUD as promised, but that thing is absolute DOG SHIT. I actually made MY OWN Crypter that performs FAR BETTER. 36/71 detections on VT of the payload i made using his crypter, then using mine, only these 3:

Bkav Pro
W64.AIDetectMalware

McAfee Scanner
Ti!F588A5AC21F6

Trapmine
Malicious.high.ml.sco

i am already reworking my crypter to make sure even these detections cannot be made. Although this is getting a little off topic, my point is just to warn others to steer away from this guy. He claimed that 100+ people are using the stealer which is why the payloads constantly are becoming detectable again, WELL WHY CANT MY \$250 BE REFUNDED? thats plenty of money to give me mine back, guy literally has nothing to lose from refunding me unless hes actually just broke and barely makes any sales. Regardless though, i hope no one else makes the same mistake I did.

Cyber Products - March 4, 2026, 11:50 am

Sanning on virustotal tells me a lot about you and it is against my terms.

Anyhow, if you show a video proof that my stealer does not work, i am ready to refund now.

thank you.

duarffodog - March 4, 2026, 11:54 am

LOL i couldve used kleenscan but im broke thanks to you buddy so please refund

Cyber Products - March 4, 2026, 11:55 am

(Mar 4, 2026 12:54 PM)duarffodog Wrote: [\[CITE\]](#) LOL i couldve used kleenscan but im broke thanks to you buddy so please refund

So you upload my stealer to virustotal for it to get distributed and detected then blame it on me?

Please show me video of the stealer not working.

duarffodog - March 4, 2026, 12:38 pm

this guy is ridiculous. to clarify, i did NOT upload a payload from his stealer or his RAT, i used his crypter, and that was the results. It sucked like the other 2 apps i purchased, and he agrees to refund me, or say he says, but then he wants more and more reasons or excuses or proof for why or what the problme is and 2 months later nearly since i bought them and they still dont work, i am not explaining myself any further. I will be amazed if he refunds my money today, or any time soon for that matter. he stalls a lot, ive made it clear i want a refund and already sent my wallet address. now he stops replying again on telegram

Do not, ever, use virustotal to scan your stub..... You are the one responsible for the detections the stubs are getting.

How annoying it must be to develop a stub for 100+'s of customers with no issues and then someone is uploading them to VT. LOL..

duarffodog - March 11, 2026, 10:03 am

clearly you guys must be friends. funny part is you clearly did not even bother reading the entire post you quoted. and actually, it was all the virus signatures being detected by someone testing the stub that was supposed to be FUD which was crypted by HIS PERSONAL CRYPTER sent to me. won't waste anymore time with this, sellers behavior is questionable too, when someones clearly had numerous issues with your product and you have failed to meet their needs to troubleshoot those issues over the span of nearly 2 months, a refund is more than fair to ask for and i even offered to take a \$100 less, he agrees here, but definitely did not follow through on that at all. With 100s of customers you cant refund \$250 to 1 of them? Likely, you are their friend; im done with this anyways. For the record, thats the first and only time ive ever used VirusTotal in my life :D Figured i would used it on his stub since theyve been useless to me thus far. If it works for other people great, wasnt my story and ive heard others had similar problems as well.

How annoying it must be to develop a stub for 100+'s of customers with no issues and then someone is uploading them to VT. LOL..

Been watching this guy over long time,im not a customer or purchased any of your software but your threads are littered with complaints.....just glad i did not put cash to you.Look after your customers as im sure they invested a lot of cash and time within you.....surprised your not banned already bro.

My customers? Complaints? LOL where?

Sure you got the right person?

Understood, no worries.

Stanley - March 11, 2026, 9:43 pm

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
