Thread: [Software services marketer \(2500 USD+ MONTHLY PAYMENT\)](#)

SkilledMaster - December 11, 2025, 4:50 am

I'm looking for a marketer who can bring in at least 15 ready-made clients each month who need website development or other software services (app creation, AI assistant development). Bring in clients and I'll pay you \$2500+ by the end of the month. I'm providing a ready-made guide for the marketing area, but you can still share your experience/capacity in marketing with me via PM.

(If you bring in more than 15 clients, I'll pay an extra client \$100 per extra client.)

Conditions:

The clients you bring in must generate at least \$500 in earnings by the end of the project and accept cryptocurrency payment or you can receive payment through a local payment app or method and then send it to me via cryptocurrency.

For your trust, payments don't have to be at the end of the month; if you prefer, I can pay you your share as soon as I deliver the work for each client you bring in, no problem.

You're right, buddy. I'm thinking of buying one later.
