sure, for 30\$:D , that's why the 1 week package exist, for people to test at a cheaper price. Is an easy way to filter serious customers from those that keep wasting my time with no real progress.

If you can't afford that or you're not willing to pay for it, I'm sorry but you are not my potential target customer.

Alien Words - January 4, 2026, 1:41 pm

solidkane - May 6, 2026, 11:27 pm

I've been using this crypter for the past few days and I'm thoroughly impressed with its performance and reliability. As someone who works with various RATs, finding a crypter that consistently delivers is crucial, and this one exceeds expectations.

Key Features:

100% FUD (Fully Undetectable) - Tested with multiple antivirus solutions

Wide RAT compatibility - Works seamlessly with all the major RATs I've tested

Multiple output formats - Supports .js, .vbs, .bat and .exe files which gives great flexibility

Stable execution - No crashes or detection issues after deployment

What really sets this crypter apart though is the seller. He is incredibly helpful and genuinely invested in making sure their product worked for me. When I initially had a minor configuration issue, the Coder/seller took time to walk me through the setup process step by step and explained everything in detail. This level of support is rare in this space.

The crypter is regularly updated to maintain its FUD status, which shows the developer's commitment to their product. It's clear this isn't just a quick cash grab but a properly developed tool with ongoing support.

I can recommend this crypter with complete confidence. Whether you're a beginner or experienced in this field, you'll appreciate both the quality of the crypter and the exceptional customer service.

10/10 would recommend - A+ product from a trustworthy seller!

this is my first crypter I tried and I am fully happy/satisfied with the product the owner is always attentive and will help you step by step if you get stuck or have a problem, he is super friendly and super helpful the files that I crypted with his product bypassed windows defender .vbs .bat .js .hta .exe all bypassed windows defender super impressed would definitely recommend his product

overall 10/10

xScream - August 9, 2026, 8:22 am

Hi, does it still bypass WD? And how many detections per day does the semi-private stub get? I'm interested in the 1-month pack with AsyncRAT. Thanks

msdospt42 - August 9, 2026, 12:56 pm

Great experience overall. The contract credibility was solid, and the thread provided useful information and reassurance before making the purchase. I purchased the crypter it bypasses WD, fud and everything worked as expected on my end. The seller was also very responsive, replied quickly, and delivered the product fast. Good communication, smooth transaction, and the product matched what was advertised. Would definitely recommend this seller.

picpic - August 11, 2026, 4:36 am

I watched the videos carefully to understand how the .lnk exploit works, but there are a few things that intrigue me: isn't there a decoy file option, for example, to open a real .txt file at the same time the .lnk is executed?

...and for the .lnk to work, is it absolutely necessary to have our crypted file in the same directory as the .lnk ?

Frost Crypt - August 11, 2026, 7:30 am

(Aug 11, 2026 04:36 AM)picpic Wrote: [\[CITE\]](#) I watched the videos carefully to understand how the .lnk exploit works, but there are a few things that intrigue me: isn't there a decoy file option, for example, to open a real .txt file at the same time the .lnk is executed?

...and for the .lnk to work, is it absolutely necessary to have our crypted file in the same directory as the .lnk ?

you can bind a file too directly to the crypted file so it will execute a txt/pdf or whatever too

no, lnk exploit works by itself with only 1 file, there's no connection in my video with the other crypts if you have more questions feel free to contact me on telegram

n0xi0s - August 12, 2026, 8:50 am

Finally admin done the job. Love dude

Sticky Bot - September 21, 2026, 12:46 am

Hi, I'm Sticky Bot. The owner of this thread has purchased a Paid Sticky. Hack Forums does not get involved in deals or deal disputes. We do not vouch for the product or the service offered by members. Please note that all deals are at your own risk. The sticky will expire on Oct 19, 2026. If you or a loved one are interested in buying a sticky please visit this page: [Buy Sticky](#). For more information about Paid Stickies you can read our [Help Doc](#).

drakns - September 27, 2026, 2:48 pm

Does it convert xls or just icons?

Frost Crypt - September 27, 2026, 10:48 pm

I have LNK exploit not excel or anything else .

Frost Crypt - October 2, 2026, 5:59 am

all stubs are continuously updated periodically

yes, is working fine

Stanley - October 9, 2026, 8:38 am

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
