Before creating this post, I talked to the manufacturer on Telegram

He said he would give a one-day test

But it didn't happen.

Definitely great

I hope there's a super discount of over70% for Lifetime??

Maybe I can buy

But strange and very high prices

Lifetime: \$999

roselopez - December 22, 2025, 9:29 am

You've been releasing seeming great softwares in these recent days. GLWS

Any plans on other output formats? .bin, .vbs, .js etc?

Any vouch?

bin vbs js zip hta etc are silent exploit. They have lnk exploit you can get with lnk,url, exploit and script. If it didnt change you can even devoy a legit files with it, otherwise output file for rat will alway be exe

Fully undetected means bypassing wd and smartscreen too ?

Coded in ?

Will you add the hvNC ?

Bypasses WD, for smartscreen you need sideload or ev cert.

coded in c#.

Cyber HVNC is a different product and is coming soon with features that has never been seen before.

ServersFxcked - December 23, 2025, 4:07 pm

So is hvnc getting added to this or a separate tool

Come this price should pass smartscreen or atleast a future update

exploits going to be added ?

future updates planned ? details

HVNC is offered as a separate product, allowing our team to manage each tool independently and deliver frequent updates and improvements.

We also offer bundle packages that include all of our products at a significantly discounted price.

Product has been delivered.

The bot had a problem with sending the product with the auto-payment, and it has been fixed.

let me know if you need any help ?

I purchased RAT+Stealer, encryption, and payload signing 2 days ago. It was delivered correctly, however, they haven't responded since to sign my payloads. In short, I have RAT+Stealer, but I can't work because everything is corrupted.

I recommend negotiating carefully and I await a response.

Stanley - March 13, 2026, 10:07 am

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,

Stanley
