Thread: [HQ Undisclosed CS:GO Gambling Strategy 1 : 1 M e n t o r s h i p 1:1Mentorship](#)

zeezoo_al - December 22, 2025, 4:34 pm

? Undisclosed CS:GO Gambling Strategy + 1:1 Mentorship ?

High-edge framework • Private guidance • Limited seats

? What is this?

You already degen on CS:GO / CS2 sites.

This is a private mentoring program around a custom, session-based approach for a single unnamed CS:GO gambling platform.

No public spoonfeeding, no leaked PDF. You get direct access and live guidance.

? How it worksYou contact me, we verify you're not a leech / clown, and agree on payment in crypto

We jump on a 45–60 min call where I map your budget, risk profile, and goals on the target site

I hand you the full framework, step-by-step rules, and live examples from real sessions

You run it on your own accounts while I review screenshots / logs and tell you what to adjust

Once you've got it down, you keep running it – I don't babysit forever

? Pricing & slotsBase package: 500 USD / in crypto (covers initial call + follow-up window)

Limited seats to avoid saturating the method – I choose who I work with

0–2 vouch copies for reputable members at my discretion (proofs required)

? Terms of ServiceEducational use only – you are responsible for where/how you gamble

No chargebacks, no leeching, no reselling, no public leaking of any material

Breaking ToS = instant blacklist + I reserve the right to leave honest feedback

Interested?

Send me a PM with:

Budget • Experience level • Timezone

and I'll reply if you're a fit.

[contract=tid]Start Contract[/contract]

If you can't afford a \$100 test deposit, don't ask for a vouch copy.
