Thread: [Quality Stealer supporting all current browsers / browser wallets / others](#)

0x0000 - December 23, 2025, 3:48 pm

Looking for a quality info-stealer. Written in pure C or C++.

Mandatory support for all Chrome-based browsers, perfect decryption of passwords and cookies.

No ANTI-CIS — MOST IMPORTANT. The trojan must run on all machines without any geo-targeting restrictions.

High-quality browser extension harvesting.

Price doesn't matter. Waiting for offers in PMs.

!!! ESCROW SERVICE ONLY !!! - DEMO must be provided.

Trash/scammers/frauds — don't bother writing. Been in the scene for over 5 years, you won't scam me.

Stanley - December 24, 2025, 2:35 pm

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Your stealer doesn't even collect wallets — what are we even talking about? This is garbage.
