Vouch, works very well. I would pair this with his Cyber Rat, honestly probably the only decent working cryptor on the site. Honestly a steal for the price.

For smart-screen bypass you need an EV certification.

kenomaskox - January 2, 2026, 10:57 am

Wrote you on telegram, good luck with sales.

On which os it works?

LuaClass - January 7, 2026, 12:07 am

Vouch again, crypter is constantly being cleaned, updated. Has no issues with it. Works with anything I give it.

nice crypter [warn]

HDThree - January 22, 2026, 5:38 pm

I didnt see a binder on the bot. Is there a binder feature available for this? If no, do any of your products offer this feature? Thanks in advance for the reply.

qaisdev - February 1, 2026, 10:23 am

I lost my money twice. The crypter does not work, and the owner of the topic does not want to help and gives stupid replies. The crypter produces corrupted files, and the problem is that he does not want to help at all—he only replies with responses that have nothing to do with the issue. The problem is that I bought the crypter twice and lost my money twice. I have all the evidence. I purchased the crypter through his own bot. Please pay attention.

It doesn't seem like any of you even had a contract with him which is a breach of HF rules. Sales trashing isn't technically allowed. You are supposed to have a contract and some of you are getting posting etiquette warnings because you haven't read the Posting Etiquette section of the [Help Docs](#). You are all required to read the [Help Docs](#).

Everything is up and working.

Bypass windows defender on scantime & runtime.

If you have an active license please pm me to get the latest update!

thank you.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
