What's the weather like in your country. In the North of Italy today is a sunny day ??

Deany - December 28, 2025, 6:52 am

Right now , it is slightly cold. Will be back warm very soon.

It's getting a bit colder. But not as much as you'd think at this time of the year.

Hella bipolar here in Arkansas. One day or hell one week is hella cold and the next is hot, we are having an odd winter -_-

Rahul007rhp - December 28, 2025, 8:28 pm

Its the best time of the year with festivals around the corner & its chilling

Yeah, heard about the extreme weather you're having. Could it be the warming of the globe or it's an established fact that climate change is an hoax because I really do believe it's happening and these are the physical reason, please educate me if im wrong. Thanks
