Our Story:

We've been there.

Our brand was hit by fake reviews from jealous competitors. We tried several services, but none worked. Slow replies, shady sellers, reviews gone in days... It damaged our reputation and wasted our time.

So we built our own system.

A private Trustpilot review system. Aged accounts. Profile pictures. Established profiles to make sure your reviews remain authentic and long-lasting. No spam.

We believe reputation is power and now we're giving it up to you.

Because we think: no business should suffer from reputation attacks or short term "solutions."

REFUND POLICY:

Warranty & Refund Policy:

- Every Trustpilot review comes with a 90-day replacement warranty. If a review is removed within that time, we'll replace it within 3 days free of charge.
- If we can't deliver your reviews or fail to replace them within the promised timeframe, you'll get a full refund.

FAQ:

Will my reviews stay online forever? Are the accounts aged? What IPs are you using?

We use active, aged accounts in local IP addresses. Our accounts follow Trustpilot's guidelines and all have profile pictures, unlike other providers. We're unable to claim that THE REVIEWS WILL NEVER GET REMOVED, because it's against BHW terms and rules and Trustpilot has final control. However, to ensure peace of mind, we offer a 90-day replacement guarantee for any review that gets taken down and a full refund if we're unable to replace them.

Can you write the reviews for me?

Yes! We have a team of expert writers who craft high-quality reviews for you. They take time to understand your business, draw inspiration from other customer experiences, and write authentic, individual reviews that fit your business.

Can I decide the country, name, gender...?

Yes, you can customize your reviews!

Choose the country the review comes from, pick the name and gender of the reviewer (or let us decide). Furthermore, select the star rating, and decide whether you want to write the review yourself or have our expert team create a positive one.

"I don't understand anything" / "I have further questions"

No problem at all! We offer 24/7 support and will guide you through everything step by step. It's simple, and we'll make sure you understand it all quickly.
