He advertises here as getting first 1,000 members for \$0

But when asked him in DMs he says that not true and his cat wrote that.

Serious seller or LQ seller, you guys judge for yourself.

This is a cat hater below guys xD

So 16 sales in total, 0 disputes, countless results from people that bought it.

On other forums you can even see.

So the method does involve investing, can be anywhere from \$50-250 to get the best results, YOU CAN use it even with \$0 investment, but you will get slower results.

Any other questions, I am happy to answer.

Maybe two of the ebook methods might work well with each other.

Will look into it

I run Reddit panels and have around 1k accs made in a day. Also run around 5 models at the moment. If you're providing a discounted copy and accept MM, I will be happy to test this out at scale. Let me know if this works

Cheers bro

With all of that stuff, \$200 that you would pay for the course won't be a problem and can greatly help you out :) Cheers!

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
