With the Einstein's free coffee, is that just regular coffee or can you get latte's too?

Can I get the free 1 year of grubhub if I'm already a prime customer? Or is it new signups for Amazon Prime only?

These are some pretty solid deals and I saw your other thread, too. I appreciate the work you're putting in these and bringing life to this sub.

Cheers ?

You need a new amazon account to get the free grub hub I believe.

Nice offers for people who can actually benefit from them.

I'll say thank you on behalf of those who just come, take, and leave without even saying thanks.??

Honestly, it's frustrating to see such a good, well-organized thread laid out on a silver platter, and the people who benefit from it (and there are many, I'm sure) don't even say THANK YOU... ???
