Thread: [53 Times Flock Safety Hardcoded the Password for America's Surveillance Infrastructure](#)

Hackers - January 9, 2026, 9:42 pm

Interesting write up on how Flock exposed their ArcGIS API key, exposing sensitive data for drone statuses, gunshot detections (cities), cameras, GPS locations of patrol cars, trackers, vehicle alerts, 911 events, and more.

Seems like a pretty dangerous vulnerability affecting over 5K police departments, thousands of businesses, and I'm sure an unknown number of sensitive orgs.
