1. Which countries supported ?
2. How about SMS ?
3. Do u provide vouch copy ?
4. What is failure rate ?

All countries are supported but some caller IDs are not supported in some specific countries, i do provide vouch copy if you would like to test route and the countries you want to call. At the moment, i don't provide sms service. Failure rate is almsot none except if the caller ID is not supported.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Can't tell you exactly, the most easier is to test yourself. I do provide test calls for free. Please PM me.

It seems like a very good service. We'll wait a couple of days to see what people who use it are saying.

What's the price per minute?

sorrypal - February 12, 2026, 7:57 am

used service, overall great, sometimes lines are occupied but 100% recommend

Ayena - February 13, 2026, 3:57 pm

\$25 for test call. Definitely ain't cheap.

Ayena - February 18, 2026, 8:21 am

My review:

I purchased the trial, and I must say it's a very good service and easy to set up and use. Everything is automated and details are generated immediately. My only issue is the price tiers, there isn't a plan for the casual user, like myself. Unless you need high volume number switches, it's hard to justify the price tag. Even a one day trial is \$25.

Moving forward, I'm like to see a plan catered to those who are the casual user and have less outgoing volume each month. I think I'd even spend more on the minutes, it that's what needed. Overall, it's worth a try if you're in the market for something like this. I would recommend!

A plan for casual user would keep me here for years. Let me know if you implement it.

To be honest, this post doesn't inspire confidence. I asked this guy for a 30-second trial, but he kept putting up some kind of obstacle—he'd leave my messages unread or stop responding for hours—until he finally blocked me when I told him I'd give him 60 minutes, since I read in this very post that it might be possible to negotiate. Anyway, I don't recommend buying from him.

I've decided to stop our exchange because I didn't feel the interaction was heading in a productive direction. I also want to be transparent — the 2-hour delay was simply because I was busy, not something I should have to justify. I noticed some frustration on your end over that, which confirmed for me that we may not be the right fit for doing business together. I wish you all the best.
