Thread: [Free Telegram bot creating gifts, subscriptions. Super promote channels!](#)

netxsup - January 24, 2026, 7:09 am

We present to you our multifunctional Telegram bot:

1) Creating gifts

You can create any gift, including access, information, photos, videos, images, vouchers, coupons, discounts, promo codes, etc., with a specific condition for receiving this gift, namely, the condition for receiving the gift will be a subscription to the channels you specified during creation + a certain number of clicks on your referral link in the bot.

You can use the free plan for this feature; however, to use it, you must add several of our channels to your channel subscription.

Please go to our bot <https://t.me/netxmixonbot> click "start" and click "create a free gift".

2) Create paid subscriptions to channels and groups

You can create paid subscriptions to your Telegram channels or groups using our bot. Payments and payouts are automated and processed in cryptocurrency.

To create a paid subscription, you need to go to the bot <https://t.me/netxmixonbot> click "start" - profile - channels - add.

In our bot you can find a large number of gifts that our users have already created, any of which you can get absolutely free.

Please click on the "gifts" button in our bot.

Welcome - <https://t.me/netxmixonbot>
