Personally I am strictly a hockey bettor, but that's just me.

Personally, I'd say soccer, also because it's what gets the most analysis, as far as I know. Tennis, too, can be somewhat safe bets with good odds if analyzed properly, but mainly soccer. I also bet a bit on UFC, but that's more for fun, so I don't really know what to tell you about that.

I'm gonna bet it on NFL and MLB sports.

UFC my friend, although it's all fun.

If I could put it on an esports rather than a traditional sport then I would go with Call of Duty or Counterstrike as those are what I've had the most success with. If I had to go with a traditional sport though then I'd probably put it on a UFC fight for the same reason and also because that's what I've had some of my most enjoyable moments betting on.
