Thread: [US Justice Dept shares emails - Musk asks Epstein to party & visit island in emails](#)

Hackers - January 30, 2026, 3:20 pm

Over the course of 2012-2013, Elon Musk reached out to Epstein to visit the island, contradicting his previous claims that Epstein invited him but he declined.

The Justice Department of USA has released emails between the two.

They go as far as exchanging a few emails planning flight times for arrival, and settle on Musk flying out sometime on the 2nd, and leaving early on the 3rd.

The US Gov is either telling Musk bye-bye, or they have released emails by mistake. If the PDF above is missing, you know your answer.

Musk is implicated in the Epstein files, hands down, and his previous claim to have declined visits is a fucking lie. He wanted to go, re-arranged his schedule, and reached out multiple times.

Of course he was sad he couldn't go in 2013, he probably was trying to party it up like in the past.

We know he likes to party...

Elon lying about his involvement in anything is not surprising to me at all. Nodes, we might disagree on plenty, this is one we don't.

:) Not surprised either, and yes, some things are bipartisan.

There's a certain other name in these files listed 5,000x unredacted as well if you care to look. Starts with a T too

That's alright too believe it or not. 3 more years and we're onto better options. ?

Another one for Musk that I don't think is circulating as much as the other emails rn

Lesley Groff is one of Epstein's assistants.

So far the news is reporting the 2012-13 emails but haven't seen anything about Musk/Epstein as recently as 2014 until a minute ago when I stumbled on this

Interesting that he intended to bring his wife to a sex party with underage girls. Or not.

Could just be drugs without girls, who's to say. The important part is that this discredits Musk's claim that he declined an invitation years ago, but was actively pursuing a trip to the island in 2012, 2013, and 2014.

So then naturally the next question is, what else is he lying about?

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Elon has called everyone else who even slightly annoyed him a pedophile which is really disgusting. He just throws that word around.

Remember when he wanted to be a big hero with his shipping vessel, but someone else saved the boys from the caves so he called the man a pedo? He tried to call Eminem one for endorsing Kamala and then he called Trump one when they fell out and he got huge backlash.

Yerp...

It's all projection anyways. In most cases, when MAGA accuses others of something, they are doing it themselves, or are supporting it. You can almost always rely on this.

When I talk to MAGA pedophiles and use names like "kid fucker" they get so upset... but are happy to do it to others.

They are willing to categorize entire nationalities based on the small % of criminals within. So it's ironic that they don't like being called pedophile, based on the % of pedophiles within.

The majority of Republicans are not pedophiles, but I would say at this point that the majority of MAGA/Trumpers are either sodomizing boys and raping girls, or they are okay with it. "Its just fake news bro, everything the world says is fake, and everything my idol says is true, I am so smart" ~ MAGA vibes.

MAGA = Pedophile Party. They allllll fuck kids. Just like allllll Mexicans are apparently rapists and criminals, ALLLLL Trumpers are having sex with children.

They dislike it when their tactics are used against them, and remember, everything they say to counter it is FAKE NEWS LIBERAL MEDIA HOAX. They have nothing else. They just said it's fake, or a lie, or they change the subject. When handed evidence, the blind mice say "I AM STILL BLIND", so it's no surprise there.

They are fucking the kids, they are eating the feces, and the cats! THEY ARE EATING THE DOGS! AND THE CHILDREN! WILL ANYONE THINK ABOUT THE CHILDREN?

Anything said otherwise is just part of BIG LIE from FAKE FOX. My uncle graduated MIT, it's true, they are truly raping children in le MAGA.

^ How our President talks, but for some reason he is a genius and I am brainwashed if I talk just like him.

They have an inability to apply any form of critical thinking to their own cult. They truly are victims of their own demise, and yet so willingly involved, we can treat them as the pedo criminals they truly are. They are not victims after 10 years of being able to research. They are willingly ignorant, or blindly retarded, but never worth the salt in their sweat - and yet always salty.

MAGA likes to dish it, not take it. Kind of like how MAGA likes to fuck children, but not be raped. Perhaps the tables must turn: "get fucked, maga"

edit: Just want to add that I want to see EVERY person in the files fully investigated. If there are

enough allegations, go to trial and let a jury decide with a legal judge presiding over it in a bipartisan way.

The only reason I feel the need to call MAGA the pedo party is because it seems to only ever be MAGA that shuts anything down that even touches on accusing their favorite man in makeup whereas a lot of the Democrats and others are willing to investigate anyone.

Oh how far we have come from Nixon and Clinton being investigated and kicked out. Now we sit through week after week of impeachable crimes and statements, and we get told from the least American people in the room that they're making America great again.

Its just always the same, every single time. They prove it every time, truly. They are unable to treat this topic with any respect because they are essentially living in an alternate reality with alternate facts and how dare we insinuate that they are anything less than Einstein levels of genius for being such good sheep followers.

If MAGA acted at least 50% republican, we would not be here. They truly are the RINOs, the dumb fucks, and the domestic terrorists threatening our nation.

It would be easy to change my mind: Just treat Republican names with the same level of intensity as you give Dems.

Until they can do that, it's pretty clear - Every MAGA is just a pedophile or defender of those who have sex with children.

Nodes the reason I'm not junking all these threads and leaving some open is because the teenage girls stories are important news and what's important is the victims. Unfortunately those who abuse teen girls and young women are from every walk of life and brining it in as a political thing is wrong because it's unfortunately bullshit and it's clear both Dems and Republicans were both involved in getting cheap thrills with teen girls who were human trafficking victims of Epstein and also the Tates have been let off when they clearly groomed, trafficked and choked and raped victims and also forced surgery and did torture there's so much evidence but they paid people off.

Andrew Tate was brilliant at collecting AWESOME quotes from other people and pretending they were his own and thereby has loyal fans here. I was broad minded enough as a woman to be interested in his blog tips for getting ahead in life but I found a number of his great quotes were not created by him and he was bloody good at sourcing them from others. Couldn't find every single one from someone else but in the short time I spent on it I found he'd pinched a number of them.

Also he was stupid selling his course for young men when he'd done illegal things to get wealthy because of course journalists infiltrated and ratted him out on audio for admitting to illegal things. However he's paid everyone off now.

thanks for your input, it would be weird if HF started redacting information that's out there. While a minority of HF and other obscure sites may feel that my opinion is out of the norm, the majority of the real world looks forward to criminal charges for dozens of these criminals. They will have their day in court.

I have never said anything that isn't based in fact and integrity. I am constantly battling people on this site because they want me to sacrifice my integrity and bend the knee to what I would call a malignant tumor in society, framed as patriotic devotion to what is actually ignorance marinated in brainwashed bigotry, grifting, hatred, and retardation.

Is it harsh when I use these words? Yes, but in many ways, I am far too kind too. I cannot verbalize or put into writing the true feelings of the world, or truly advocate for the need for accountability without writing ten essays over ten years. Luckily for me, others will.

The statute of limitations is 7 years for many crimes, and no statute for others. This won't be the end of this conversation. The conversation will last for decades. First we must prosecute, then we must convict, sentence, and then teach kids about American history so that this may never happen again.

I have no doubt in my mind that I am on the right side of history, simply dealing with a group of kids on an internet forum that are not representative of the majority of the world which agrees with me on almost all of the issues others here have a problem with.

I feel often that I am simply trying to inform & educate users on HF. It's not up to me, nor is it on my conscience that there are a dozen or so people here (that happen to be active) that can't take the opportunity to become more knowledgable on these issues. They are simply not up to the task of critical thinking, and that's okay because it's understood that the amalgamation of all of these issues is the result of their mental lacking rather than a coincidence. It is never a surprise, but always a frustration to deal with.

I have noticed some other strange things and I believe there are cases where they are discussing topic A which is cryptic for topic B.

I'll check out the cypher som more.

A doc was found yesterday where the gov wrote about Epstein's death apparently 1 day before he did die. It could be a paperwork issue, or it could just be another coincidence in a string of them.

Your video doesn't share the original doc though which is very disappointing. I want to learn more, hard to treat it 100% seriously because the comments are turned off and they don't cite sources.
