Thread: [Melania Film Director implicated in Pedo Files](#)

Hackers - January 31, 2026, 8:15 pm

I think the pedo files are more than just Epstein, it's about the high number of people involved.

Here is the director of Melania Trump's brand new film, implicated in the files with a redacted girl on a couch, next to Epstein.

Suppose they all do don't they

Your entire world revolves around Trump. Its pathetic. Your views on Kirk were disgusting and your view on the MN girl that got shot were retarded.

If Trump was doing bad things with Epstein, why didn't Biden leak anything? They were clearly going to lose the election and something bad on Trump would have swayed the vote dramatically. Rich people hang out with other rich people. They both had mansions in Florida. I bet a lot of people who went on the island were innocent. If he invited me on a beautiful private island and make connections with billionaires and meet influential, I would 100% go.

Get help.

I don't know who you are, just shut the fuck up. I don't give a shit about your little measly opinions, I am just sharing evidence of yet another relationship and connection to Epstein.

Stop making everything political, you all are the same because you have no original thoughts or ability to apply critical thinking.

I'm not obsessed with Trump, you and others like you are up his ass if this offends you. I'm just sharing what's evidenced.

Thank you for putting it on record where you stand with this. Your bias and obsession is showing. I also shared plenty on other sides of the aisle - Clinton, Gates, and others.

This isn't political, it's just evidence. Know the difference, it's important.

Also though... get over it snowflake, you are crying!

There are two probably teenage victims in that not just one. But yeah this has been all over the news.

That film made 2.9 million from Conservative Southern women going to it and just no one else and Amazon paid 75 million for it. They need to realise people will NOT pay money to hate watch like they think. People will only hate watch politics related stuff on free to air television or piracy sites if at all. Not sure why these movie execs aren't getting that. Not much interest in a first lady in general out there unless it's Elenore Roosevelt or Jackie O.

People say illegal immigrants are hiding in screenings of it because the theatres are empty.

Happily married, I'm not concerned with what a bunch of braindead MAGA think. You guys are on the wrong side of history, the world knows it, and we pity you. You are like the aunt getting scammed by the Nigerian prince inheritance email. Everyone knows MAGA redhats are victims of the greatest grifter, and yet they demand respect and act like they are smart, and we are stupid.

It would be morally and intellectually negligent for any serious person to even consider being MAGA, and yet so many of you are proudly redhatted. Fuck me, I am not so goddamn dumb.

You are low in intelligence and it's why i have no hesitation disregarding your opinion as the trash it is.

Im just going to remind the maga people of this.

Pizzagate. Y'all became obsessed.

Remember drain the swamp?

Remember other investigations? Lock her up come to mind?

Trump also PROMISED up & down to release the Epstein files, as a critical campaign promise. Now it's here and you act like we are out of line for talking about it, dumb fucks, honestly, every single one of you.

The only ones obsessed with Trump are MAGA. They are more than happy to jump on any accusation ever made by the fat orange fuck in charge, but when thousands of files are released outlining a widespread criminal network, they are deers in the headlight.

This is just one more case where the MAGA on this forum expose themselves as biased, unable to critically think, and solidified in their cult.

yeah the Milania film is a complete flop

Nobody needs a reminder of how stupid the whole situation is. Eleanor Roosevelt and Jackie O

weren't whores introduced to a conman, so yeah, I wouldn't put Melania anywhere near them in the first lady group. We can see Melania's story play out in every corner of filth in the world, the only difference is that her pimp got caught and her husband became president.

Melania is just the trophy wife whore of Donald Trump, and won't be anything more until she decides to make a name for herself and get out. Victim? Possibly. Willing participant? Definitely by now.

The only way a woman touches you is if she is

1) A streetwalker

2) An escort

(both paid positions)

If by some miracle you have a wife, has to be a troglodyte

Not maga either. You literally do tricks on trump's dick every other post that man's ballsack does not leave your throat LOL

He is literally the only thing on your puny midwit brain all day long it is entertaining to type two words and have you fuming hahahahahahaha

(Feb 1, 2026 07:51 AM)nodes Wrote: [\[CITE\]](#) yeah the Milania film is a complete flopIt's not a complete flop in all areas. If Amazon hadn't wildly overestimated how popular it might be and hadn't erroneously and stupidly believed people would PAY to "hate watch," it did well in the South among conservative women. Theatres were packed with conservative women in red southern states it flopped in the north. In the South in red states it was the biggest non music documentary opening in a decade and outperformed opening night expectations.

But it was a flop in terms of how much Amazon spent to acquire it for distribution and a flop in terms of critical reviews which were overwhelmingly very very bad. It's apparently according to overwhelming number of reviews a fluff propaganda piece with no grit or interesting documentary type content and scored 7% on Rotten Tomatoes. I wonder if that's the truth since I have not seen it.

But it terms of what Amazon invested in it yes it's still a disaster though it did better on opening nights than most sources predicted it would.

I looked this up on Copilot on my phone, but I am on HF on laptop and I'm not copying the Copilot stuff just finding the bits I felt were worth saying so that's my source for all this anyway.

Also Nodes please capitalise sentences. It is a rule in the [Help Docs](#) although I'm not warning upgraded members for this anymore, since some have made huge donations to the board.

I don't understand this thing some of you do where you don't capitalise the first letter of your first sentence, but then do below. What is that?

Okay, you're LQ and you have me on ignore. Do us all a favor and ignore me, you aren't ready for these types of threads bud.

Please save brain cells for the rest of us and stay off serious discussions.

Go fuck kids or something. I'm not gonna sit here and be like "my wife is hot" with you. Keep distracting from the thread.

You raped your little brother growing up. Do we need to share the story or will you finally fuck off?

Fuming? I like embarrassing people like you. The only people who agree with you are likeminded, bigoted, wastes. It's fun to make you guys admit your views so the good people of HF know who can read and who cannot, who is of value and who is not, and who is HQ. You sir are not.

I wouldn't consider anything I said to be insulting or flaming, just brutally honest feedback.

He's a cuck, it's the closest he gets to cumming in a woman.

A little drama never hurt Hack Forums as long as it doesn't get anywhere near DOXXING I guess. Apparently you met his little brother at some point, since you're "sharing truth."

Yeah, I don't really care for drama, and I certainly would never post doxx.
I have no time or energy for these kids, they are quite literally beneath us.

Anyways, best to stay on topic

The Nodes dude flames anyone who doesn't agree with his warped idiotic obsession with Trump.

He has no clue of how to debate or have productive recourse, I don't think he has the mental ability or the self control even to do so.

Yeah, and while you were there Epstein would tell a 13 year old to go sit on your lap and then he'd snap a photo and then you'd be his forever.
