Thread: [\[RELEASE+FREE COPIES\] HIDDEN-VNC | THE FIRST AI-AUTONOMOUS hvNC](#)

SIM-5724601 - February 5, 2026, 4:02 pm

? [RELEASE] HIDDEN-VNC | THE FIRST AI-AUTONOMOUS hvNC ?

Work Smarter, Not Harder. Let the AI Drive the Desktop.

BEYOND MANUAL CONTROL

Traditional hvNC is a headache. You spend hours clicking, searching, and trying to stay stealthy. Hidden-VNC changes the game by injecting a Neural Command Layer into the hidden session.

The AI "sees" the screen just like you do, but executes tasks 10x faster.

? CORE CAPABILITIES

Voice-Command Integration: Simply speak into your mic. The agent detects your intent (e.g., "Transfer all browser cookies to my server") and executes the mouse/keyboard actions instantly in the hidden window.

Event-Driven Triggers: Set the agent to "Watch" mode.

Example: If a Chrome window with the title "Bank" is detected, the agent automatically starts a high-quality screen record and keylog.

AI-Driven Mouse Pathing: No more robotic movements. Our AI uses Bezier-Curve Randomization to mimic a real human user, bypassing advanced behavioral analytics.

Auto-App Cache Harvesting: Instantly detects and compresses profiles for Chrome, Brave, Edge, and Telegram. One command, one download.

FUD Persistence: Built for 2026. Bypasses Windows 11 Defender and EDRs using Dynamic Process Hollowing.

? PRICING & TIERS

| Plan | Features | Price |

|---|---|---|

| Basic | 1 Active Connection + hvNC | \$35 / Month |

| Agent Pro | 10 Connections + AI Voice Commands | \$95 / Month |

| Hidden-VNC Elite | Unlimited + Private Stub + Lifetime Updates | \$250 / Once |

? TRUST & RELIABILITY

[FREE VOUCH COPIES]: 0/3 Taken. (Available to Ub3r/L33t members only for a detailed review).

Automatic Delivery: My shop is linked to Sellix. Buy now, get the download link in your inbox within 60 seconds.

* Privacy First: No logs, no tracking. Your C2 data is encrypted with AES-256.
