Happy Friday here buddy :D

The new UB looks great so far, maybe a bit close to the left and right edges but still looks really good

Going to hit the gym, do some programming, and try a new restaurant. Simple things in life bring the greatest joy.

Good day [7](#) It's great to see the Brotherhood on your hands.

I'm just taking it easy this Saturday, getting some rest and doing nothing much.

Stay safe and God bless.

Happy Sunday bro

CSS prefix sounds interesting, curious to see what you're cooking with that.  
Not doing much today honestly, just chilling and catching up on some stuff online.

A rather clean update to the dormant text profiles of the forum.

Very nice.
