Thread: [Holder for Stripe - 0 requirements - 100% Passive income \[OPEN\]](#)

bl4cklak3 - February 9, 2026, 2:15 pm

Looking for a long term partner based in the US will be able to handle Stripe payments.

No requirements other than being located in the US.

Having a Stripe account would be ideal but if you don't it's not a deal breaker.

What all would you need?

Does it need to be aged?

Would this be % based?

What type of potential volume would you expect? Since you already have a website to connect I am assuming.

Send me a PM if you want to further discuss.

Thanks

send me a pm to discuss and same questions as above especially when it comes to maximizing the earnings rather than have fees eat through the revenue.

There is also much more you can build out when you use atomic api endpoints to access full functionalities from the Stripe system rather than only via the SDK. Assume you have a site as well just as Scortex asked

I could start a US based corporation, but it'll be subject to legal limits, taxation, and payouts will only be made post processing. The nature of the business must be permissible and you won't be given access to the accounts, and paid out on a pay schedule, can you work with terms like these?

My business is located in the U.S with LLC and running on stripe for the last 5 years. If you would like you can message me the details and we may be able to work something out.

I'm based in the US and could be interested if it's all above board and legal.

Still looking for the right person.

This is not a bump, just clarifying.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
