Thread: [How's the Climate Where You Guys Live?](#)

R5N3T - February 10, 2026, 11:09 pm

Hey guys, lately the weather in my area has been super hot, around 30°C every day. It feels really stuffy and I keep sweating all the time ?

I'm curious, how's the weather where you live? Is it hot too or more cool and comfortable?
