(App name = ZBD)

I'll keep it simple.

You choose which tasks you want to complete. There are plenty of options, like playing mobile games (many of them are actually fun and popular), watching short videos, or answering quick 5-question surveys (See the "RevU" offers in the app for more variety of tasks). If you want to earn more, there are also longer surveys available with higher rewards.

This is a great option if you're just looking to earn some extra BTC on the side.

No this is not a get rich quick thing but it works.

Get paid in BTC or gift cards

3 Million+ users

Wallet already compatible with other play2earn games (Such as Bitcoin Miner).
