Thread: [Professional No-Code SaaS Development | Launch your idea 10x faster](#)

Kriptik - February 13, 2026, 1:46 pm

I have 5 years of experience working on different projects for customers who built their apps using full stacks no-code technologies.

What I am offering is to build you an MVP for your business idea (10 times faster than traditional coding).

Please use this form when asking for a project:

What is your app about:

List the must-have features only:

What is your budget:

Do you have any assets (figma design, logos, etc...):

What is your deadline:

I am currently available for new projects so hit me up.

Note: payments accepted through Paypal & Crypto only for the moment.

[contract=tid]Start Contract[/contract]

If he's a paying customer, I don't exactly see a problem with it. ??? I get it, you probably are looking for smooth transactions... But we cannot just shame new people out of the marketplace lol.

Yes I totally understand your reasoning, however looking at the user's threads you can clearly see they are spam. So I'm not sure about his intentions (but I have a bad feeling about it).

At the end of the day I decide whether or not I want to do business with you.

Can you pm me? I can pay and it's a easy thing I guess. I prepare all the step by step. Maybe 30min work

What is your app about: downloader for my online book (downloading blocking images) got the thing to run but don't know how to do it(link for GitHub)

List the must-have features only:

What is your budget: 100\$

Do you have any assets (figma design, logos, etc...):

What is your deadline: whenever it's ready , 24h-72h?
