I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Woody's Frenemy - April 4, 2026, 2:50 pm

Does the code work on existing account

ProxyLand - April 4, 2026, 4:39 pm

So real quick, the \$10 one ... we use on our OWN Account/Perplexity Login? (With having a card on file or it deactivates)

or , the \$20 is just a whole new seperate account (I understand this one) ???

Essentially comes down to if we want it on our own account or not? And got a card to keep on file??
Ok. If that's the case, i'll buy one of the \$10.

Yes, as long as it never had an active pro I believe.

Would I be able to pay \$10 to try it on my account and if it doesn't work then just pay the extra \$10 for another account? Or would my attempt at using it on my account burn the code for you, making it unable to be sold after?

What email service are the accounts that come with it made on?

Either way I'd like one or the other ASAP. Thanks
