MEXC Releases February Proof of Reserve Report, BTC Coverage Rises to 267%

MEXC released its February 2026 Proof of Reserves report, showing all major assets backed above 100%, with BTC coverage jumping from 158% in January to 267%. Wallet holdings nearly doubled to 12,003.98 BTC, while ETH reserves rose to 73,433.86 ETH (112% coverage). Audited monthly by Hacken and verified via Merkle Tree technology, the report reinforces MEXC's transparency and asset protection stance.
