Thread: [Spoof Call and Spoof SMS set any caller id](#)

skytelecom - February 22, 2026, 9:14 am

We provide worldwide spoofed call and SMS spoofing services.

You can set any caller ID, with high quality, confident voice delivery.

Spoofed call rates for Tier-1 countries. We have worldwide coverage for spoof calls.

We also offer SMS sender services worldwide, with multiple routes available so you can choose the option that best fits your needs.

Customers coming from HF may contact me for testing, and we kindly ask you to share your review in the thread afterward.

For the full price list, please visit: <https://skytelecom.io>

You can contact us via our ticket system or on Telegram: @skytelecom_io

For vouches we are new here, if you want test contact me we for test credit. regarding setting a specific short codes that's technically not possible.

????????????? - February 22, 2026, 1:36 pm

(Feb 22, 2026 02:30 PM)skytelecom Wrote: [\[CITE\]](#) For vouches we are new here, if you want test contact me we for test credit. regarding setting a specific short codes that's technically not possible. I would be happy to test and also buy if they work good. I regularly need the calls done and texts. So it would be good.

Sticky Bot - February 23, 2026, 12:00 pm

Hi, I'm Sticky Bot. The owner of this thread has purchased a Paid Sticky. Hack Forums does not get involved in deals or deal disputes. We do not vouch for the product or the service offered by members. Please note that all deals are at your own risk. The sticky will expire on Mar 2, 2026. If you or a loved one are interested in buying a sticky please visit this page: [Buy Sticky](#). For more information about Paid Stickies you can read our [Help Doc](#).

Rift9536 - March 4, 2026, 6:17 pm

submitted help ticket asking for test credit, if numbers work that I need spoofed then will definitely be buying

No you are liar, testing is free.

Stanley - May 12, 2026, 9:35 pm

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

skytelecom - May 20, 2026, 6:18 am

Did you know we have an app?

Yes! Everything you need is now in your pocket. ?

Make calls

Send SMS

Manage your wallet & SIP credit

Track your call logs & activity

Access IVR Studio & support anytime, anywhere.

Download Now

App Store -> <https://apps.apple.com/app/skytelecom/id6760398439>

The Joker - July 29, 2026, 9:52 pm

Interested in the service. Will contact soon!

juulstar - July 30, 2026, 3:54 am

Good rates, and it is interesting that you all offer an API alongside a SIP Trunk. I like it.

These types of services are easier to use for my marketing SaaS, as having some silly clients overstep their boundaries using our communications provided by Twilio has caused us issues.

I would REALLY like to see you guys add email services, for sending email in bulk. Imagine if you guys became the #1 telecom service for all telecommunications!

It would be super great to have an API for both transactional, automated and bulk email sending. It could be a one stop shop. I'd want API BUT also SMTP route so I could hook it up to my existing backends for sending receipts, OTP, password resets, etc to my customers (so, an smtp server exposed that a user could create a login for, and by that login they could route it to specific domains to access, permissions, etc).

Also, would really like if you guys could offer a solution akin to Google Voice, aka a VOIP number for call/sms which could also receive as well (but still be used via the API, make multiple calls/texts concurrently, etc).

Looking forward to trying the service, but hoping you guys could add the email service and my other suggestions!

kyctrey - July 30, 2026, 7:38 am

Thanks for the detailed feedback, we really appreciate it. Our goal is to become a complete telecommunications platform, so ideas like these are exactly the direction we want to move toward.

We are working on expanding our VoIP features, including virtual numbers with calling, SMS, API access, and better tools for businesses that need to manage communications at scale.

(Jul 30, 2026 07:38 AM)kycrtrey Wrote: [\[CITE\]](#) Hi, Shoot me a pm

Hello, I replied check your pm

Advaitoz - July 31, 2026, 10:31 pm

Few questions

1. Do you support call spoofing for every country for example - usa , uk , india
2. Do you support spoof from all numbers like 18xx

3. What does sms spoofing like we can use our custom sender id or just preset given by you (inbox ratio)

Do you give tests

skytelecom - August 1, 2026, 4:02 pm

(Jul 31, 2026 10:31 PM)Advaitoz Wrote: [\[CITE\]](#) Few questions

Do you give tests

1. Yes we spoof call spoofing for USA and UK working well, but for India only international numbers.

2. Yes we do support all numbers.

3. It depends on the country you are sending to.

Yes, we do provide test as well. Contact us on telegram.

bubblebutt - August 6, 2026, 1:48 pm

Interesting ??

gale_ds - September 14, 2026, 7:37 am

I dont understand why you are charging money to subscribe to the dashboard and not just charge per sms sent from budget. this is absurd.

Griffin020 - September 21, 2026, 11:49 am

Not working well

feng158158 - September 21, 2026, 1:27 pm

Please leave your contact information.

dogzonn - October 8, 2026, 3:13 pm

yeah, this is kinda weird why i have to pay 30 eur, why i can't depo whatever amounts i want... but good service tho btw not for broke people

TheMedigator - October 11, 2026, 6:19 pm

Cool service, would have used it if there wasn't a 30 euro a month access fee on top of the price of messages and calls.

I wouldn't use it enough to justify that access fee on top
