(Track ID: 120723210). I have already completed the payment, but your system failed to provide the VPS. Instead, the website displayed multiple PHP warnings:

Warning: Constant PF_CLOUD_API_KEY already defined in C:\xampp\htdocs\config.php on line 4
(and several other "already defined" errors).

These errors clearly indicate a backend configuration conflict in your config.php file on your XAMPP server. Because of your system's technical failure, my order was not processed correctly.

My registered username is jjon868@proton.me

Hey There,

We have been undergoing system improvements that our colo messed up for us.

Apologies for the inconvenience. your VPS is being delivered now.

We are now offering CN and HK server locations. Send us a Message about these!

JokerGhostx - March 22, 2026, 4:55 am

Smooth and fast. If u plan on doing cpu intensive tasks , get more cores. U will need them. Other than that, network performance is what you should expect from shared network but i can confirm its constant and stable.

Bought a customized server from c00l earlier this month and within moments had it setup but had an underlying issue he noticed and promptly resolved while also offering compensation for it with an upgrade to my pre-existing customized plan. The server ran smoothly even before he found an issue and was just as smooth after, never having any problems. Prices were more than fair and the custom packages he offers to better tailor your needs is greatly appreciated to avoid wasting un-needed hardware in this shortage we have these days. Definitely plan to use as one of my go to providers for any of my hosting needs and also a great guy to bounce ideas off of.

All around great guy, glad to find another reliable hosting provider make their way onto HF! GLWS brother! ?

I had a pleasant experience with CoolSSH!

very fair pricing, and servers are pretty good!

I do have a contract for the user, the contract was done with their second thread.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
