Hey guys!

What do you have planned for 2026, and are you looking forward to it?

This summer, I'm planning to visit a few islands in Greece.

I'm getting married in December and planning to go on my honeymoon in January. We're thinking about going to Thailand, the Philippines, or Tanzania in Africa.

For me my only summer plan pretty much is to do my yearly visit to Lapland in Finland with my girlfriend :D

Just because the day never ends there. And there is a lot to see there if you like nature and the scenery.

Haha, I didn't mean meeting up. I meant you could suggest some places and activities in the Philippines.

Recently, a lot of people have wanted to visit Asian countries. Maybe it's because it's cheaper than Europe or the US? I'm not sure.
