What Sections Do You Visit Most on HackForums?

HackForums sections

Which sections delight you the most and which ones do you "visit" most often on HackForums?

I am the type who kind of "WANDERS AROUND" everywhere, but yes, I often visit AI, Hack, VIP + Member Contests

I will also start playing on SportsBook although it is not my "strong point"

The lounge and member contest are very fun to visit.

The Lounge and the Members Contests. Also news section. I like reading about trending tech news.

Well most definitely Lounge, then second is the market with premium seller section just to look around who offers what and then DIY and gadgets section under white hat, which is sadly kind of dead but I love making threads there and hope to make a few more soon!

I often visit The Lounge, Member Contests, and sometimes the Markets section

Lounge, marketplace, groups, and the convo. The convo is probably #1 place to be.
