Thread: [Whats a trend you dont get?](#)

What trend or meme have you seen and never understood? Maybe someone here can help or explain! Or just share a trend that you always found weird.

For me its skibidi toilet or whatever its called, I do not understand how people ever found it funny or entertaining, its just heads looking out of a toilet and singing a weird song, maybe someone here knows why it found such popularity that there is a whole mini series about it on youtube.

What about you all?

"Skibidi toilet"

I think it got popular because kids find it funny and entertaining, the randomness, the weird singing, and the absurd visuals appeal to them. Personally, I find it kind of strange, though

All the brain rot nowadays. I feel the videos I watched as a kid were not that dumb.

The cleats trend. It doesn't look good with regular outfits. Instead of wearing timberlands, Jordans, and any shoe.

I don't get Labubu. They are collectors items for who? Strange.
