Thread: [Does anyone here smoke cigars?](#)

This is not a euphemism for something else but I just wondered if anyone here smokes cigars? If so, how is it compared to cigarettes or vapes? I've heard that its the healthiest option out of those and can be pretty relaxing as well.

I don't smoke cigars, but I am pretty sure the reason it is healthiest option is because you don't inhale cigars and they are not smoked as frequently.

That's interesting. I wasn't aware that you don't inhale cigars. That might be good actually because I tried cigarettes before and I was having trouble inhaling the smoke properly so gave up on them.

What would you say is the difference between the two in terms of relaxation? If there is any.

Cigars in my experience have been smoother and easier to smoke as well. Also a lot more expensive.
