Thread: [SilentClipper Builder Built-in Validation | 24 Coins](#)

SilentCoin - February 28, 2026, 3:14 pm

? BUILDER with built-in ADDRESS VALIDATION

- > No typos. No copy-paste errors.
- > Every wallet address is validated BEFORE saving.
- > Real-time validation on input — you see immediately if the address is valid.
- > Save time. Save money. Zero invalid addresses.

? Full list of supported coins (24 total)

BTC, BTC bc1, ETH, BCH, DOGE, LTC, XMR, XLM, XRP, NEO, DASH, TRX, ZEC, BNB, XTZ, ALGO, ADA, DOT, TON, FIL, ATOM, KAVA, SOL

? Build technical specifications

Parameter Value
----- -----
Architecture x64 (64-bit only)
Syscalls SysWhispersU, RANDSYS CALL (randomized syscalls)
Process Hollowing Classic + Ghostly (Windows 11)
Smart Inject Auto-select method by OS version
Replacement algorithm best match by first/last chars

? BONUS: BALANCE CHECKER (included)

- > Console tool in underground ASCII style
- > Real-time balance monitoring for 10+ coins
- > Watch mode: auto-refresh every 5 min (configurable)
- > Change tracking: highlight balance increase/decrease
- > Sound alert on incoming funds
- > Works directly with JSON config from the builder

? Price

\$250 — Lifetime

? Summary

- Validation — every address checked by regex before save
- 24 coins — full list above
- x64 + Syscalls + Hollowing — stealth techniques
- Zero typos — only valid addresses in the build
- Bonus — Balance Checker included

samhunt4 - March 1, 2026, 12:15 pm

so its a crypto stealer am i Right??

SilentCoin - March 3, 2026, 8:16 am

You specify a list of your crypto addresses, the clipper selects from the list one similar to the victim's address and replaces it

Oh this is awesome. OP, this looks like you've put some time and thought into and it looks great. I'm curious to see more. Good luck with sales! This can be used very nicely. By chance, are you able to do a vouch copy and I can check it out, test it and such and come and post a review here? Really looks like this can be put to some serious use. I'm surprised no one else has commented yet.
