Thread: [Have you ever met a celebrity?](#)

Omega Sapien - February 28, 2026, 5:08 pm

I actually work for a celebrity but he's not an actor. He's a celebrity chef. I work backstage as a porter during some of his live shows. I don't want to reveal too many identifying details though. Has anyone else ever met a celebrity?

My ex was a celebrity and was also a member of hackforums and yes I have worked with quite a lot of celebrities music, film and sports.
