Thread: [Coding & AI Mentorship - Full Stack System/Website/App & Custom AI Copilots](#)

ZeLizzard - March 2, 2026, 6:16 pm

Currently offering services to those interested in learning how to utilize AI to the upmost and get the most for your dollar and learn how to code in the process if you don't already.

Also offering Full Stack Development ranging from ASM/C to Modern nodejs/python/rust/go/ect..
It would be extremely rare for me not to be familiar with any software/networking/hosting/coding in general you're looking for.

Pricing:

Basic Mentorship - \$150/mo

Advanced Mentorship - \$250/mo

Custom Tailored Mentorship - contact me

Current Custom Mentorship (Limited Time) - Claude/GPT method for massive context and session capabilities, disclosure of hidden alignments along with helping set it up and answer any questions you have along the way - \$375

10 Total Slots allowed at once.

The tiers reflect support level, while I will do the best to help everyone as quickly as possible the tiers exist for that purpose.

This is not a youtube video/guide, this is 1 on 1 via messenger and or video (if you want to show your screen) with real time help when needed along with talking you through anything you don't understand. The objective is to teach you how to fish, not simply just give you one.

I would be surprised if you needed more than 6 months from zero knowledge to full with applying yourself and willing to do the work to learn.

Learn how to scaffold and build multiple entire system for pennies to dollars each via GitHub (Limited until patched out if it gets patched out)

Contact:

PM Me

Telegram/XMPP+OTR/Session/Signal/Telegram: Contact first for any of these.

ToS:

1. You acknowledge and agree this is for educational purposes only and the mentorship will not be liable for anything you do with the knowledge gained.
2. All sales are final, refunds provided in the case there is an error on my end.
3. Your acknowledge with the mentorship plan you are not purchasing tools, only the help with using said tools and special methods to create functioning systems.
4. Any information you gain that is private or proprietary should be kept that way, breaking this will

lose access to any future discoveries and help.

5. I Reserve the right the change the Terms of Service at any point as deemed necessary.

Thank ya, hopefully there will be those interested in advancing their skill set, especially any new people in the "vibe coding" scene that can help them out quite a bit haha

C00Lssh - March 26, 2026, 7:15 pm

shoot me a pm, looking for some web development. curious if its up your ally.

Tossed you a pm, I'm sure I can help ya with what ya need

Stanley - July 15, 2026, 2:29 pm

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
