Are you tired of posting content that gets zero traction?

Struggling to grow your brand or following on TikTok?

Let's be real, humans are visual creatures.

We judge by numbers.

A video with 26 views?

You scroll right past it.

A video with 260,000 views? You stop. You watch.

You assume it's worth your time.

That's the psychology of social proof.

It's why McDonald's has signs that say they proudly served "Billions and billions" – because when people see others choosing something, they trust it more.

With the TikTok ViewBot Generator by IRLCash, you can take control of the algorithm and give your content the push it deserves.

How it works:

Load a list of your proxies (one per line in http://user:pass@host:port format)

Paste your TikTok video URL or upload a list of videos.

Set how many views you want and how long each view watches.

Hit Start and watch the magic happen as it delivers views that look 100% organic.

Each view is unique & 100% safe!

You are only limited by the quality of your proxies.

Pair this with high-quality residential or mobile proxies and you've got an unstoppable machine.

Monetize this tool:

Sell views to upcoming creators and streamers.

Run a viewbot farm across multiple PCs (unlimited license)

Offer "growth packages" to clients.

Let's be real – a lot of your favorite creators are botting their numbers. Now you can too.

? FAQ

Q: Can I get a vouch copy?

A: Sorry no vouch copies. This software took time, money, and effort to develop. It's currently being sold for a reasonable price of \$199 for a lifetime version. This price will increase to \$299 when the MAC support releases which will be very soon as I take pride in updating my software to provide the best possible experience for my customers.

Q: Does it work on Mac?

A: Currently Windows only. A Mac version is in development – when it drops, the price will increase by \$100 to \$299. Lock in the Windows license now and get the Mac upgrade when it's ready.

Q: Is it safe to use?

A: Yes. The bot uses fresh browser profiles and rotates proxies. No accounts are logged in, no personal data is stored. TikTok sees each view as a unique visitor. That said – use quality proxies and don't be greedy with volume.

Q: Can I resell this as a service?

A: Absolutely. You can sell views to clients and keep 100% of the profit. This tool pays for itself after a few sales.

Q: Is this locked to one PC?

A: No. Your license is unlimited. Install it on as many machines as you want. Build a farm. Scale up.

Q: Can I resell the software itself?

A: No. You may not resell the software or redistribute it. This license is for personal/commercial use to generate views, not to resell the program.

Q: What proxies do you recommend?

A: High-quality residential or mobile proxies. Free proxies will get you banned. Invest in good ones – it makes all the difference.

Q: Will I get updates?

A: Yes. Lifetime updates included. When TikTok changes something, I update the bot.

Q: What if it doesn't work for me?

A: I offer a 30 day money-back guarantee. Try it out for a full 30 days and see how big of a difference it can make for you. If you're not satisfied for any reason just hit me up and I'll refund you. No hassle, no hard feelings. We'll part ways as friends.

Q: I have another question?

A: Please reply to the thread with your question so I can answer it for everyone.

? Why Buy From Me?

I take great pride in providing excellent software that works and I update the software on a regular basis with additional features.

Unlimited PC usage. Use it on 1 or 100 PC's. No restrictions what so ever.

Lifetime updates – pay once, never again.

Want a feature added in the future? Just let me know & I'll update the next version to make it better than ever at no cost to you.

Clean GUI – no coding knowledge needed.

Direct support via PM.

The algorithm favors content that already has momentum. Give your videos that push and let the organic traffic take over.

Payment: BTC only

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
