Thread: [CYBER ANDROID RAT | THE MOST POWERFUL ANDROID RAT IN MARKET! | SEEDS PHRASE GRABBER](#)

Cyber Products - March 4, 2026, 12:32 pm

? Cyber Android RAT?

The most advanced Android rat in market coded from scratch by a professional team specialized in android.

? Features:

Live Screen Streaming & Control: High-performance real-time visual monitoring and remote interaction with the target's screen.

Hidden VNC (hVNC): Seamlessly control the device through a virtual window that is completely invisible to the user.

Advanced Camera Access: Capture high-resolution photos and live video streams from both front and rear cameras. The camera functionality is specially designed to work even when the phone's screen is completely off.

Real-time Audio Monitoring: Features live microphone streaming and high-fidelity background audio recording for silent ambient monitoring.

Data Managers (SMS, Calls, Contacts): Full forensic access to read SMS threads (including real-time interception), view detailed call logs, and extract the complete contact list.

File System Explorer: Comprehensive file management allowing you to browse, download, upload, and delete files across internal and external storage.

Precision GPS Tracking: Real-time geolocation tracking with live updates and path history displayed on an interactive map.

Notification Interceptor: Capture and log every notification that arrives on the device, including messages from WhatsApp, Gmail, and Banking apps.

Stealth Keylogger: Logs every keystroke, including passwords and typed messages, with a high-performance background service.

Crypto Wallet Intelligence: Automatic detection of crypto applications (Metamask, Binance.) with specialized phishing overlays to capture seed phrases and credentials.

Persistence & Anti-Uninstall: Advanced persistence mechanisms that utilize Accessibility Services to prevent the user from uninstalling or stopping the application.

? Screenshot Preview

Live demo available via PM for serious customers only.

? FAQ

Q: Does it work on all android devices?

A: Yes. Fully supported.

Q: Do you offer support?

A: Absolutely! via Telegram and HF PM.

Q: What payment methods do you accept?

A: BTC, USDT (TRC20), and more. Ask for custom options.

? Terms of Service

- All sales are final. No refunds.
- You are fully responsible for how you use this software.
- Redistribution, reselling, or leaking will result in permanent blacklist.

? Pricing

- 1 Month: \$499
- 1 Year: \$1,499
- Lifetime Access: \$2,500

Interesting project, I've yet to try an android tool of the sort yet but have been drugged, my phone stolen and had something identical to this installed via ABD and then left back in my car. Didn't know for a while until I heard my meth trafficking neighbors talking about it/what I was doing inside my home/on phone.

Curious to try a tool like this at some point for research/educational purposes

You finally found the one :)

Let me know when you're home and I'll send you the copy <3

CyberneticsX - March 4, 2026, 1:32 pm

Feels like something next level. Kudos man.

R5N3T - March 5, 2026, 5:56 am

I'm sure this is really good. Good luck with your sale, mate!

DeathPenalty666 - March 5, 2026, 3:36 pm

It's fud and bypass play protect? Any cryptor?

Kalderon - March 6, 2026, 4:16 am

it will work on Android box? OTT BOX? etc?

lonewolfertz - March 7, 2026, 7:51 am

is this with the apk fud and bypass play protect?

joshtrampos - March 12, 2026, 3:14 pm

Hi, I'm using BTMOB, but the installation is very complicated. The client needs to install it, approve it, then it asks for accessibility verification, does about 3 or 4 installations, and then it works. Are they all like this? Do they all install with only 1 or 2 confirmations? I'm looking for a RAT that makes installation faster/simpler for the client.

And regarding encryption to pass PlayProtect? Do you provide a crypter? Or can you recommend one I could use?

timmi888 - March 12, 2026, 3:59 pm

does it have apk binder? id like a vouch copy

Cyber Products - March 13, 2026, 12:56 am

Hi! In the installation process there's a popup/help gifs that helps anyone's enable accessibility. there is no permission needed. just install apk, and it will auto open accessibility to turn on then done.

permissions and everything else will be silently approved.

Stanley - March 13, 2026, 10:07 am

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Phobia_ - March 13, 2026, 10:36 am

This looks really good may give this a try soon, read all the info looked at the screenshots name reminded of NanoCore a bit but that has some bad rep though this looks really really cool!!

zzzyds1 - March 14, 2026, 8:48 pm

nice post thxxxx

Transporter007 - March 15, 2026, 3:36 am

any vouch copy left ?

timmi888 - March 15, 2026, 2:57 pm

id like a vouch copy
