Vouch for the soft, methods and other third party tools I think outdate, I was prepare to see rig exploits + traffics service, honestly.

Soft tested as user, good toy to play, simple bot, multi modules for work.

Provided RDP, cant handle provided loads, not really understand what kind loads is it and what kind crypt it is, but from 300 to 0 in few days, with out moment to save because support was offline and like all answers at RDP.

Contract detail complete.

FUD is free if you buy 1k+ installs. Else fud is \$100 for high quality installs.

Sashcoderz - October 5, 2026, 5:29 am

I was satisfied with setup package you delivered. I hope installs will be as good. Looking forward to do business.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
