would caution against buying anything from this user ive been scammed 800 usd for a private rat which ive yet to receive, ive been ignored for weeks now him and his associate - KyleTheXyle which has already been banned for scamming

This is also a service that I can provide (likely better) -- my crypts are free, entirely FUD, and convert your exe to a .bat (with startup)

Let me know if you want a crypt. Not given free crypts in years.
