Thread: [\[HOT\] \[RDP\]- Affordable Cracked Remote Desktop Servers Available \[CHEAP\]](#)

C00Lssh - March 6, 2026, 9:14 pm

Stumbled across Found lost treasure. Dont need them :)

These systems all have different configurations, so if you're looking for something specific I can check what's available. Otherwise I can simply assign one at random.

? Typical Hardware Range:

- CPU: 2 – 20 cores
- Memory: 4 GB up to 256 GB
- Processor speed: roughly 2 – 8 GHz
- Network: anywhere from around 10 Mbps up to 1 Gbps
- Server locations: mixed / assorted

? Access Options:

- Administrator access — \$10-\$20
- Standard user access — \$0.50-\$10

? How to request:

Send a message with the type of setup you'd prefer (RAM, CPU, OS version, etc.). I'll check the list and see if something matches. If you don't have preferences, I can just provide whichever system is available.

? Payment:

Cryptocurrency only.

LTC is preferred, but other coins are fine as long as the transaction fee is covered.

? Keep in mind:

- Every machine is different, so specs can vary.
- Inventory is limited and depends on what's still unused.
- If you want particular specs, ask first so I can confirm availability.

Message me if you want to check what systems are currently open.

Offering 1 Vouch copy to a uber+ member. - DONE

Code Terms of Service (TOS)

1. Nature of the Service

These remote desktop systems are surplus machines from previous setups that I no longer use. They are offered as-is at a very low price. This is not a managed hosting or VPS subscription service.

2. No Guarantees

Because these are leftover systems with different configurations, I cannot guarantee specific performance, software availability, or long-term uptime. What you receive depends on what is currently available.

3. Specifications

If you need particular specifications (such as higher RAM, more CPU cores, or a specific Windows version), please ask before purchasing. I will check whether something matching your request is available.

If no specifications are requested, a random system will be assigned.

4. Software & Configuration

Systems may include preinstalled software such as antivirus programs or Windows Defender. You are responsible for configuring the environment after receiving access.

5. Responsibility of the Buyer

By purchasing, you acknowledge that you are responsible for how you configure and use the system. Make sure to ask any questions beforehand if you need specific requirements.

6. Pricing

The price reflects the experimental / surplus nature of these machines. Due to the extremely low cost, quality and configuration may vary.

7. No Hosting Support

This is not a full hosting service. I do not provide technical support, software activation, custom installations, or ongoing maintenance.

8. Final Sales

All sales are final due to the low price and nature of the service.[contract=tid]Start Contract[/contract]

C00Lssh - March 19, 2026, 12:41 am

we just loaded in some higher cpu and spec'd machines

InterFear - March 19, 2026, 6:02 am

Hey i sent you a PM

Hey There, sorry for the delay. We just responded.

Thanks!

Goldenboi - March 19, 2026, 9:51 am

Will take a vouch copy if available high end one with 8gb

send a PM, i could provide this.

Thanks!

Goldenboi - March 22, 2026, 9:03 am

Got a vouch copy from the use and it was a 16gb ram server I will definitely come back to purchase more.
