WHAT IS 6/6 BILLING?

Most providers bill 60/60 — meaning a 7-second call costs you a full minute.
We bill 6/6 — a 7-second call costs you only 12 seconds. You pay for what you use.

HOW TO GET STARTED

1. Create a HackForums contract with me (required before any purchase)
2. Sign up on the billing portal and deposit via Heleket auto-buy — crypto, instant
3. Your SIP credentials are created on signup — configure your softphone and start dialing

IMPORTANT: You must create an HF contract before signing up. Accounts without a contract will not be activated.

PAYMENT

- > Heleket Auto-Buy — Available directly in the billing portal, crypto accepted, instant top-up
- > Minimum Top-Up: \$50
- > HF Contract Required — All purchases are covered under HackForums contract for buyer/seller protection

If you have a Telegram, Signal, Session, et al. I'd really like to discuss this further.

Thanks!

EDIT: I can fully vouch for the creator of this product, as well as the product. If you're looking to partner with someone who has a reasonably priced, HQ SIP Trunk for any reason, I highly advise this service.

The creator and I are working out the details regarding setting a CID directly from our selfmade SIP client (as currently, you must change it on the site and it doesn't accept it from your client by default), but holy moly is it a good SIP Trunk for the price. Most others like this require a massive deposit, subscription or otherwise.

If you use WhatsApp for work in your current industry, that's certainly your own business, but how am I supposed to contact you if I can't send you a message on the forum and I don't use WhatsApp!?

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

I have edited my post on the front page of this listing to reflect this vouch, as well.
