Thread: [Community CTF #00 - Find the Flag](#)

Hackers - March 9, 2026, 6:39 am

FIRST 3 WINNERS:

[618C](#)
[Vinavil](#)
[7](#)

Can you find the flag? It's obvious. Just find it!

Please do not share hints or clues with other users in this thread!

Official Hint: Are you vibing yet?

Please PM me directly once you have found it. I will announce the first 3 winners once they send a message with the correct answer. Your prize is your own recognition, pride, and credibility.

I have created this thread to offer people of all skill levels a chance to prove themselves. Vibe will have more advanced CTF and other competitions in the future.

The first 3 winners are named! If you want to learn how this was done, read the spoiler:

Spoiler ([Click to View](#))

- One image in the post is hosted on Git, which is notorious for not compressing or corrupting internal file data
- Opening the image of 7 VIBE people would reveal secret Comment data at the top of the file, in Notepad or any editor
- The secret flag is "WE ARE VIBE"
