Thread: [Could you give me tips and tools to learn Linux from scratch to advanced?](#)

2024-0004 - March 9, 2026, 12:12 pm

I'm learning to use Linux, so I can delve a little deeper into cybersecurity and focus more on it.

casperr - March 9, 2026, 1:41 pm

Google and YouTube have everything..

MauiHacker - March 9, 2026, 4:36 pm

i also am learning this too! maybe we can help each other

C00Lssh - March 9, 2026, 6:16 pm

Happy to help new members on the forum. give me a shout

cocoedinburg423 - March 9, 2026, 7:18 pm

For basic understanding of Linux Linuxjourney and Linuxsurvival have pretty good tutorials that have served me well in terms of running scientific computing software idk as much in terms of cybersecurity purposes. I'm sure you can find more niche tutorials here easily, but I can not emphasize enough how important a basic understanding of Linux is in order to actually be able to use it as your primary OS.
